

About Tata Power Solar

Tata Power Solar is India's largest integrated solar company that is driven by the singular vision – harness the power of sun to enable solar everywhere. Headquartered in Bangalore, Tata Power Solar operates in three distinct segments – manufacturing of solar modules, EPC services for solar power projects and creating innovative solar products. We are working relentlessly to provide access to energy especially in the remote, off-grid parts of India, which makes us the most trusted solar power company in the country.

- 28 years of operations with 700 employees
- Touched nearly 37 million lives till date
- Positive environment impact through reduced carbon footprint by 10 million tonnes till date
- 1.4 GW of our best-in-class Tata manufactured modules exported till date
- EPC projects of 1.45 MW commissioned till date with lifetime O&M services
- 200 MW of solar rooftop projects commissioned
- Experience of delivering 10,000+ installations nationwide
- Solarizing a variety of industries, from manufacturing, telecom and education to military, healthcare and banking.
- A process-driven organisation with international certifications - ISO 9001, ISO 14001 & ISO 18001.

Manufacturing, Fully integrated wafer to module

We are India's leading solar manufacturer operating 400 MW and 300 MW of module & cell manufacturing facility in Bangalore, which is providing high-quality solar components to power plants. We are a Tier-1 bankable module manufacturer, known for our high quality, efficient and reliable modules worldwide.

Rooftop Projects

We have executed over 200 MW of varied rooftop projects of numerous sizes across India. Having commissioned one of the world's largest and many complicated rooftop systems across the globe, we are the leading rooftop player in India, enabling your idle roofs to generate green power.

Large scale projects and industrial solutions

Tata Power Solar has strong EPC expertise executing over 1.45 MW of diverse projects of multiple sizes across India. We are at the forefront of the growing solar industrial solutions space, enabling companies to switch to captive solar plants to power their factories and businesses.

Innovative products, making solar accessible

Tata Power Solar manufactures and distributes solar photovoltaic products for both rural and urban markets. Tata Power Solar has strategic alliances with government, renewable energy development agencies, non-profit foundations and grameen banks to provide access to basic amenities to those in need - water, light and electricity.

With a skilled team and advanced technology- driven organization, Tata Power Solar, in the last 28 years has revolutionized solar energy and its application by making it accessible and available to all – for a steel industry to hundreds of villages, which has limited resources and no access to grid-connected energy. Under the leadership of a dedicated team, Tata Power Solar is poised to continue its journey to harness the power of sun and enable solar energy for everyone.
